

MEASURING INSTRUCTIONS

CHOOSE YOUR WIDTH

- Measure your window opening width, including window molding. We recommend adding 4" to that number. This is your valance width. If you are layering your valance over an existing blind or shade, and the blind is an outside mount blind, measure the total width of the blind and add 8" to that measurement (4" each side).

- Each style has a unique shape & size
- Consider the size of the drapery hardware you will be using
- The length of the valance varies depending upon the style you choose. Width is the only measurement you need to provide.

Window 1

Location of window _____

- 1. Product name: _____
- 2. Color name/number: _____
- 3. Mount type: Inside Outside (circle one)
- 4. Size: Width: _____ (always list width first)
Height: _____
- 5. 5. Lift type: Corded Cordless Motorized (circle one)

Window 2

Location of window _____

- 1. Product name: _____
- 2. Color name/number: _____
- 3. Mount type: Inside Outside (circle one)
- 4. Size: Width: _____ (always list width first)
Height: _____
- 5. 5. Lift type: Corded Cordless Motorized (circle one)

Window 3

Location of window _____

- 1. Product name: _____
- 2. Color name/number: _____
- 3. Mount type: Inside Outside (circle one)
- 4. Size: Width: _____ (always list width first)
Height: _____
- 5. 5. Lift type: Corded Cordless Motorized (circle one)

Window 4

Location of window _____

- 1. Product name: _____
- 2. Color name/number: _____
- 3. Mount type: Inside Outside (circle one)
- 4. Size: Width: _____ (always list width first)
Height: _____
- 5. 5. Lift type: Corded Cordless Motorized (circle one)
